

In the Specification:

Please amend the specification as follows:

Page 6, paragraphs 2-5:

~~To attain these purposes, the micro-optical grid structure according to the invention producing a visual diffractive effect, is primarily characterized in what will be presented in the characterizing part of the appended independent claim 1.~~

~~The method according to the invention for implementing a micro-optical grid structure producing a visual diffractive effect, in turn, is primarily characterized in what will be presented in the characterizing part of the appended independent claim 9.~~

~~The product containing a micro-optical grid structure according to the invention is, in turn, primarily characterized in what will be presented in the characterizing part of the appended independent claim 17.~~

~~The other, dependent claims will present some preferred embodiments of the invention.~~
